## *Sea-Rail Combined Transport Network*

In conjunction with China Rail Container Transport Company, COSCON has established a sophisticated network of Sea-Rail integrated routes in China, connecting the sea ports along the coast with the inland area in North China, West China, South China and the Upper Yangtze River area.

COSCON also operates many routes of liner trains designated for containerized freight, featuring “fixed route, fixed point, fixed time, fixed price & fixed train number”, including routes for Changchun, Zhengzhou, Jiaozuo, Nanchang, Kunming etc.
